ABOUT ME

I'm sure you're tired of reading resumes, so I'll try to be brief. I am a hard-working student with a good skill set looking for an opportunity to grow and shine. I excel at communication and leadership, problem-solving, critical thinking, and time management. As they say, don't judge a person by a paper (or a book by its cover), so I hope we will be able to meet sometime.

EXPERIENCE AND PROJECTS

Sales Consultant for Ipseity — 2023 - Present
- Spearhead company outreach and partnership programs and train incoming employees
- Work directly with the CEO to boost sales and launch programs

Crypto Trading Bot — 2023 - Present
- Coded my own martingale trading bot using Python Binance API, and it can be viewed on my Github

Cargoo Website(HackKU) — 2023
- Coded a website that sent text message reminders to user about car maintenance
- Developed skills in Flask, SQL, HTML, CSS, Twilio, and general web design elements
